Fully revised to meet the 2015 CPR/ECC Guidelines and to prepare students and professionals for PALS certification and recertification, Pediatric Advanced Life Support Study Guide, Fourth Edition, provides a clear and complete approach to managing pediatric emergencies. Designed for use by the spectrum of healthcare professionals, the Fourth Edition provides users with the critical information needed to approach real-life pediatric emergencies. The Fourth Edition includes: End-of-chapter quizzes with answers and objectives, as well as a comprehensive posttest to gauge material comprehension Case studies at the end of appropriate chapters for practice with real-world material application Clear procedural explanations written in descriptive yet accessible language A refined Table of Contents including standalone chapters on cardiac dysrhythmias, for focused learning and study PALS Pearl boxes for text-to-everyday clinical application In-text references for deeper research if desired

The Save a Life Initiative has just released its newest course: Pediatric Advanced Life Support (PALS). This manual is based on the 2020 Pediatric Advanced Life Support guidelines published by the International Liaison Committee on Resuscitation. The Pediatric Advanced Life Support (PALS) Provider Handbook is a comprehensive resource intended for health care professionals currently enrolled in a Pediatric Advanced Life Support Certification or Recertification Course. It serves as the primary training material for PALS Certification and Recertification

Here ' s all the information you need to respond to cardiac emergencies in one pocket-sized book! This quick-reference guide provides easy-to-access coverage of all three levels of care—infant, child, and adult—plus listings for all drugs required for ACLS and PALS in both adult and pediatric dosages.

Reflecting the 2010 Emergency Cardiovascular Care guidelines, ACLS Study Guide, 4th Edition offers a complete, full-color overview of advanced cardiovascular life support. An easy-to-read approach covers everything from airway management and rhythms and their management to electrical therapy, acute coronary syndromes, and acute stroke. In addition to the latest ACLS treatment algorithms, this edition includes new case studies, new photos and illustrations, a heart rate ruler, and a handy ACLS quick-reference card for use in the field. Written by Barbara Aehlert, ACLS Study Guide is the official textbook for the American Safety & Health Institute ACLS certification course. A pretest and posttest -- each containing 50 questions with answers and rationales -- allow you to check your knowledge prior to and after your study. Chapter objectives preview the main points in each chapter. Stop and

Review sections at the end of the chapters help you remember the most important information. ACLS Pearls boxes offer key points and useful tips for clinical practice. Keeping it Simple boxes provide essential information in a clear and concise manner. Ten case studies present real-life clinical situations, allowing you to make decisions based on information in the Preparatory section.

Consistent format of case studies includes Objective, Skills to Master, Rhythms to Master, Medications to Master, Related Text Chapters, Essential Actions, and Unacceptable Actions. A heart rate ruler is included to help you interpret ECGs. 4 x 6 pocket-size quick-reference card contains key ACLS algorithms for field use. 100 new and updated photos and illustrations show key ACLS procedures and equipment. Pharmacological interventions are integrated into the chapters for a more cohesive learning experience. New streamlined approach reduces the number of pages and simplifies the information you need to know.

Product 15-2811

The Save a Life Initiative has just released its newest course: CPR, AED, and First Aid. This manual is based on the 2020 CPR, AED, and First Aid guidelines published by the International Liaison Committee on Resuscitation and is designed to train people everywhere to respond to everyday emergencies. The course covers First Aid basics, including first aid kits, tooth injuries, bee stings, insect bites, nose bleeds, and other common problems. Advanced topics include heart attack, stroke, asthma emergencies, head injuries, burns, and more. Each topic is broken down into critical decisions to make and steps to take. This book will give you the confidence you need in situations that range from minor to crisis.

Download Free 2015 Pals Guidelines Study Guide Calvin

The book also covers how to provide adult, child, and infant CPR, as well as the use of Automated External Defibrillators (AEDs). This course is written by Dr. Karl F. Disque, a board-certified anesthesiologist, and a registered pharmacist. Dr. Disque has certified thousands of healthcare professionals with his courses in Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support (PALS), and Basic Life Support (BLS), and now he brings that same expertise to his first course designed for people in the community. This is one of the most effective and user-friendly training manuals on the market because it was created by a team dedicated to life support education with the goal of training people to help save lives. This manual is the primary training material for CPR, AED, and First Aid certification courses provided by Save A Life by NHCPS (www.savealife.com). While it is originally created for use during certification courses, the handbook is excellent reference material for both anyone to keep their everyday emergency response skills sharp. Available in paper or Kindle editions, this manual can help you study CPR, AED, and First Aid anywhere. Learn how to save a life today with the CPR, AED & First Aid Certification Card and Course by Save A Life by NHCPS. Download our eBooks FREE at <https://nhcps.com/free-ebooks-download>
