It has been a damned nice thing - the nearest run thing you ever saw in your life. The history of a battle, is not unlike the history of a ball. Some individuals may recollect all the little events of which the great result is the battle won or lost, but no individual can recollect the order in which, or the exact moment at which, they occurred, which makes all the difference as to their value or importance.

Quatre Bras near the small village of Waterloo. Reprint.

"It was a damn close-run thing" – Major-General Moore, commander of the British land forces in the South Atlantic In 1982, the average Briton didn't know the Falkland Islands existed, let alone their status as a disputed British territory just off the coast of Argentina. That changed when the Argentinians invaded the islands and overwhelmed the small defending force. Both nations claimed the islands were theirs, but now Argentina thought the British would give them up without a fight. They were wrong. Britain sent a task force into the South Atlantic to re-take the islands, and the short, intense war that followed was—in the words of Major-General Sir John Jeremy Moore—"a damn close-run thing." This short history sums up the events leading up to the war and its major military actions including details of an Argentinian plan to sink a Royal Navy ship in Gibraltar harbour (foiled at the last minute by Spanish police) and an audacious British plan to land SAS soldiers in Argentina to destroy Exocet-carrying aircraft while they were still on the ground.

A New Zealand squadron leader, flying-boat captain and airliner pilot on a life of aerial adventure Planes were rarely seen above the small Central Otago sheep-farming town of Ranfurly in the 1940s. Yet as a young boy, Tom Enright had a fascination with the skies that quickly developed into a longing to become a pilot. He joined the RNZAF as an engineer in 1951, and was sent to England at just 16 to attend the revered Royal Air Force college in Cranwell. Returning to New Zealand to join the Vampire fighter squadron in Ohakea, Tom became a famed member of the RNZAF aerobatic team. Later he became a flying commander at Wigram air base, before captaining a Sunderland flying boat to isolated communities in the vast South Pacific, often to the upper limits of the plane's endurance. From the near-catastrophic opening of Wellington airport to flying Boeing 747s into the world's biggest airports, this is Tom Enright's story of the mishaps, misadventures and high-altitude drama of a 45-year flying career.

A sweeping political, social, military and cultural overview of United Kingdom on the eve, and then the day, of the greatest battle fought by British arms.

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as they were to rulers and military generals in ancient times. Divided into thirteen chapters and written succinctly, The Art of War is a must-read for anybody who works in a competitive environment.

Alice in Wonderland (also known as Alice's Adventures in Wonderland), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influenced generations of fiction writing.

#1 Bestseller in the U.K. From the New York Times bestselling author and master of martial fiction comes the definitive, illustrated history of one of the greatest battles ever fought—a riveting nonfiction chronicle published to commemorate the 200th anniversary of Napoleon's last stand. On June 18, 1815 the armies of France, Britain and Prussia descended upon a quiet valley south of Brussels. In the previous three days, the French army had beaten the Prussians at Ligny and fought the British to a standstill at Quatre-Bras. The Allies were in retreat. The little village north of where they turned to fight the French army was called Waterloo. The blood-soaked battle to which it gave its name would become a landmark in European history. In his first work of nonfiction, Bernard Cornwell combines his storytelling skills with a meticulously researched history to give a riveting chronicle of every dramatic moment, from Napoleon's daring escape from Elba to the smoke and gore of the three battlefields and their aftermath. Through quotes from the letters and diaries of Emperor Napoleon, the Duke of Wellington, and the ordinary officers and soldiers, he brings to life how it actually felt to fight those famous battles—as well as the moments of amazing bravery on both sides that left the actual outcome hanging in the balance until the bitter end. Published to coincide with the battle's bicentennial in 2015, Waterloo is a tense and gripping story of heroism and tragedy—and of the final battle that determined the fate of nineteenth-century Europe.

acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.
