Journal Entry - The Brave New World - by Huxley. Introduction. " Aldous Huxley's tour de force, Brave New World is a darkly satiric vision of a " utopian " future — where humans are genetically bred and pharmaceutically anesthetized to passively serve a ruling order. A powerful work of speculative fiction that has enthralled and terrified readers for generations, it remains remarkably relevant to this day as both a warning to be heeded as we head into tomorrow and as thought-provoking ...

Brave New World Revisited (Harper & Brothers, US, 1958; Chatto & Windus, UK, 1959), written by Huxley almost thirty years after Brave New World, is a non-fiction work in which Huxley considered whether the world had moved toward or away from his vision of the future from the 1930s. He believed when he wrote the original novel that it was a reasonable guess as to where the world might go in the future.

But new roles raise new dangers. Central banks are supposed to be independent, yet buying up more and more debt, partly to fulfil these new tasks, erodes that very independence, some argue. The more debt central banks hold, the more governments will rely on them to keep rates low to keep debt sustainable, which in turn makes it hard to raise interest rates when necessary.
