Dynamic Measurement Group Fluency Passages

It is an acronym standing for Dynamic Indicators of Basic Early Literacy Skills. It is simply an early literacy screening instrument to determine children who may be at-risk for literacy problems. It is a series of short tests given to children in kindergarten through grade five to monitor and screen their progress in learning some of the necessary skills to become successful readers.

DIBELS - ReadingResource.net

Fluency (TORF) (Children's Educational Services, 1987). DORF is a standardized set of passages and administration procedures designed to (a) identify children who may need additional instructional support, and (b) monitor progress toward instructional goals. The passages are calibrated for the goal level of reading for each grade level.

Many schools have implemented academic response to intervention (RTI) and schoolwide positive behavioral interventions and supports (PBIS) as separate initiatives. This book provides keys to making these programs more effective, seamless, efficient, and sustainable by combining them into a single multi-tiered system of support (MTSS). Steps and strategies are outlined for integrating data structures, practices, teams, and district systems. Contributing authors present detailed case examples of successful MTSS implementation in three states. In a large-size format with lay-flat binding, the book features 27 reproducible checklists and evaluation tools. Purchasers get access to a companion website where they can download and print the reproducible materials plus other helpful resources. This book is in The Guilford Practical Intervention in the Schools Series, edited by T. Chris Riley-Tillman.

"This prevention-oriented assessment for the growth and development of literacy skills will help you easily identify students in need of intervention and accurately evaluate the effectiveness of intervention strategies. DIBELS is designed for ongoing use to measure foundational skills and progress in reading; predict later reading success and performance on high-stakes tests; and provide an instructional goal that will prevent reading failure and promote reading success."--Publisher's web site.

This book provides guidance for educators (teachers, support staff, school administrators and instructors in schools of education) to assess, understand and address the needs of English language learners within the context of the Response to Intervention process. This book empowers general and special educators, as well as support staff, to take on important roles and activities without necessarily having to speak the student's native language.

Featuring vignettes, graphic organizers, instructional strategies, up-to-date research, and more, this updated bestseller helps educators understand the most effective ways to teach all students to read.
