If you want to learn how to be attractive, and the secret to attractiveness, then this book is for you! We are taught not to judge a book by its cover. Try as we might to live by those words, however, the fact is that we can't help but do just that - judge others by how they look, that is. Personal experience has taught us that others judge us by how we look, after all. And while some of us are born with model-good looks, the sad fact is that not all of us are so genetically gifted. Fortunately, science, as well as anecdotal evidence, shows that there is far more to attractiveness than mere looks - which is great news for all of us. This book will cover in detail what science has to say about physical attractiveness to better understand how the human mind and physiology work. Also in this book I'll divulge some fool-proof tips and tricks that have been proven to tip the scales in someone's favor - someone who's not a cover model, that is.

If your typical Saturday night are those where you stand around in the bar with the glass at chest height watching others having fun while you feel miserable then this is the right book for you. Most books or seduction guides will try to give you advice on what to do or say to women. They will tell you which techniques are best for you to get not only her, but any woman and almost instantaneously. This book is not about what to say to women, but focuses on creating a more

attractive personality. It will not be instantaneous, it will take time, you'll never be able to conquer them all and many will reject you. But I can assure you one thing, it will work! The reason most books do not work is because they do not address the underlying problem, instead they promote techniques that attempt to compensate for personality deficits. They seek to cover up the problem but not solve it so your fears and insecurities are still there. It's like trying to cover the crack in the Titanic with a bandaid. No matter how many you use, it will never be enough. Those for whom these techniques will be necessary subconsciously feel they are not good enough to conquer them. Men who are most successful are those who do not see the woman above themselves. Thus the game becomes simple and natural. That is why I faithfully believe that success with women is based on the development of our personality. Self-development and being an attractive man are inseparable. If you are failing with women, you are doing something wrong. This book explores how to build an attractive personality through personal development. It offers a new perspective that puts individual growth as the key to enjoying a full social life and being successful with women. It also helps open the door to unknown depths of ourselves. It is an invitation to discover our own assets and be honest with ourselves in order to meet and relate with women. This work describes in detail introspective mechanisms that will allow us to explore and look into our own attractiveness in a new light. Seduction Simplified is not another pick up artist or dating book to meet girls. Seduction Simplified will help you to build an attractive personality through personal development to attract women. This book is easily accessible and uncomplicates the complicated. The book will help you to: - Assume a different attitude towards women- Develop your identity- Discover what attracts women- Improve your self-esteem- Be confident-

"How to be an Attractive Man" is a book for men of any age who are searching for effective ways to look and feel better. 101 tips have been divided into seven sections, applying respectively to face, body, personality, mind, clothing, hygiene & grooming and living habits. Some time ago, being a perfectly ordinary-looking guy, I was searching for methods to improve my appearance and found an ocean of ideas, tricks, tips and advice, some obstreperous, some easy, some ridiculous, some brilliant. And some even depended on quasi-psychological ways to influence other people's minds, which is complete nonsense. That search gave me food for thought, which in turn persuaded me to write this guide, because I wanted to select the methods that are the simplest, most effective, and depend entirely on you. When you want someone to become interested in you, you usually think how to make her (or him) find you attractive. That is, you start thinking how to deal with the way they see you, and that approach is - and will always be - wrong. That's why this is not a handbook on how to deal with people, but a guide on how to deal with yourself. The only way for others to find you attractive is to become so. This is a book which aims to show you how to achieve that.

Demonstrates how society favors the beautiful and how better-looking people experience startling but undeniable benefits in various aspects of life. This title shows that the attractive are more likely to be employed, work more productively and
