Review of structure and function of the human body refreshes you on content learned in previous classes and how it applies to this curriculum. Completion exercises with key terms reinforce nursing vocabulary. Short answer, identification, multiple choice, and matching questions use multiple formats to test your knowledge of concepts conveyed in the text. Application of the Nursing Process questions reinforce the different stages of the nursing process. Answer key for all activities and questions is provided to instructors to distribute to students at their discretion. NEW! Updated exercises reflect the most current textbook content.

This convenient, money-saving package is a must-have for nursing students! It includes deWit's Fundamental Concepts and Skills for Nursing, 2nd edition text & Mosby's Nursing Video Skills: Student Online Version 3.0.

Fundamental Concepts and Skills for Nursing, 5th Edition provides all the basic theoretical and applied knowledge that the LPN/LVN nurse needs to practice in an expanded number of care settings, such as the community clinic, physician's office, long-term care facility, home, and acute-care hospital setting. With an extensive art program and thorough discussion of QSEN, this text addresses topics like the physical and psychosocial needs of the patient, critical thinking for problem solving and clinical judgment, and communication - all within a strong nursing process framework. The accessible, friendly, and clear writing style appeals to students and instructors, and its rich ancillary package, including NCLEX-PN review questions, gives students an edge on learning fundamentals. Concept maps give a visual example of concepts addressed in the text, help you visualize difficult material, and illustrate how a disorder's multiple symptoms, treatments, and side effects are associated. Over 110 skills and steps, featuring sample documentation examples and Home Care Considerations boxes where appropriate, present step-by-step procedures in an action/rationale format. Life Span Considerations: The Older Adult highlight changes that occur with aging and how they affect nursing care by LPN/LVNs working in community and long-term care. Easy-to-follow reading level and text organization presents information from simple to most complex, making it perfect for lower level students and those speaking English as a second language. Numbered objectives, divided by theory and clinical practice, provide a framework for content. Cultural Considerations cover biocultural variations, as well as health promotion for specific ethnic groups, so you provide culturally competent care. Health Promotion and Patient Teaching boxes include guidelines to prevent illness, promote health, and develop self-care strategies. Nursing process framework features application of the nursing process and nursing care plans to reinforce application of the nursing process in the clinical setting. Think Critically boxes encourage you to synthesize information and apply concepts to practice. Home Care Considerations boxes highlight the necessary adaptations of nursing skills and techniques for the patient in the home care setting. Communication boxes present examples of nurse-patient dialogues and instructive therapeutic communication techniques. Over 20 nursing care plans, which include critical thinking questions at the end of the text, provide you with a model for planning patient care. Clinical chapters provide an overview of structure and function to give you a refresher in related anatomy and physiology, including a section on aging. Key terms include phonetic pronunciations, which are helpful for ESL students, and text page references to find the definition. Standard LPN Threads features include helpful characteristics such as full-color design, key terms, numbered objectives, key points, critical thinking questions, critical thinking activities, glossary, and references. NEW! Nursing Concepts and Exemplars listed for each chapter to support concept curriculums. NEW! Discussion of QSEN and highlighted Safety information provides you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of patient care. EXPANDED! Evidence-Based Practice boxes and highlighted best practices point out the most current, evidence-based information. UPDATED! Expanded art program with original photos and line art better illustrates nursing concepts.

This dynamic and engaging workbook/CD-ROM package guides users through Pacific View Regional Hospital - a multi-level, virtual hospital setting in which students meet and care for a set of highly complex and diverse patients. The VCE workbook acts as a map, guiding users through the interactive setting as they care for patients in the virtual hospital and draw connections between these nursing experiences and their textbook discussions. Each workbook lesson includes a reading assignment from Fundamental Concepts and Skills for Nursing, 2nd Edition and activities that tie in with the accompanying software. Virtual Clinical Excursions equips users with the practical knowledge and skills needed for clinical rotations, while sharpening the decision-making skills that will help them set priorities for care, collect and interpret data, prepare and administer medications, and reach conclusions about patient problems. Meaningful, real-world problems place users in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. The highly-engaging format encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. Lessons in the workbook complement the content in the textbook and guide the student through the virtual hospital. Includes NCLEX examination-style questions that offer built-in testing of clinical knowledge. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care, including: charts, medical administration records, electronic patient records, video clips of nurse-client interactions, and other related materials. A clock icon appears under each lesson, estimating how much time it will take to complete. A linkage icon alerts the user whenever they are about to begin an exercise that connects with previous lessons. The elimination of third-party plug-ins facilitates fast and easy software installation. Flash-based technology allows for more ease of use and seamless navigation. Greater faculty support with the addition of the FAC PAC, a new instructors' website, and a radically expanded testing component. A medication administration feature enables users to select, prepare, and administer medications. Over 50 common medication errors imbedded within the software to boost clinical realism and prepare students for current practice. A Medication Room that contains a wide variety of drug storage areas, such as a Unit Dosage Cabinet, Automated Dispensing System, IV Storage, and a Refrigerator. 6 unique patients/cases, each with complex medical-surgical conditions for students to care for and monitor within the virtual hospital.

Here is an illustrated, easy-to-reference handbook with step-by-step instructions for the procedures most commonly performed by primary care clinicians in office, hospital, and other outpatient settings. Organized by major body systems, each section reviews the diagnostic procedures for that system, followed by all of the information you need to perform the procedure. Begin with an overview and a list of methods for performing the procedure, followed by rationales, indications and contraindications. The procedure section lists the required equipment and provides step-by-step instructions for performing the procedure. You'll also have CPT coding guidelines and health promotion and safety prevention tips for client teaching as well as post-procedure care.
