The revised and expanded edition of the bestseller that changed millions of lives The science is clear. The results are unmistakable. You can dramatically reduce your risk of cancer, heart disease, and diabetes just by changing your diet. More than 30 years ago, nutrition researcher T. Colin Campbell and his team at Cornell, in partnership with teams in China and England, embarked upon the China Study, the most comprehensive study ever undertaken of the relationship between diet and the risk of developing disease. What they found when combined with findings in Colin's laboratory, opened their eyes to the dangers of a diet high in animal protein and the unparalleled health benefits of a whole foods, plant-based diet. In 2005, Colin and his son Tom, now a physician, shared those findings with the world in The China Study, hailed as one of the most important books about diet and health ever written. Featuring brand new content, this heavily expanded edition of Colin and Tom's groundbreaking book includes the latest undeniable evidence of the power of a plant-based diet, plus updated information about the changing medical system and how patients stand to benefit from a surging interest in plant-based nutrition. The China Study|Revised and Expanded Edition presents a clear and concise message of hope as it dispels a multitude of health myths and misinformation. The basic message is clear. The key to a long, healthy life lies in three things: breakfast, lunch, and dinner.

A guide that cuts through the haze of misinformation and delivers an insightful message to anyone living with or at risk from the following: cancer, diabetes, heart disease, obesity, Alzheimer's disease and /or osteoporosis. Dr Campbell illuminates the connection between nutrition and these often fatal diseases and reveals the natural human diet. He also examines the source of nutritional confusion produced by powerful lobbies, government entities and opportunist scientists. Part medical thriller, part governmental exposé.

Following her bestselling The China Study Cookbook, LeAnne Campbell brings together top names in the plant-based community to share their favorite and most delicious recipes in The China Study All-Star Collection. Featuring your favorite chefs and cookbook authors, The China Study All-Star Collection includes foods from Happy Herbivore chef Lindsay S. Nixon; Del Sroufe, author of the New York Times bestseller Forks Over Knives Cookbook; Laura Theodore, host of PBS' Jazzy Vegetarian; and pioneering researcher Dr. John McDougall, which all follow the nutrition standards set forth by The China Study. Even better, with delectable dishes such as Dreena Burton's Sneaky Chickpea Burgers, Heather Crosby's Peppermint Chocolate Chunk Ice Cream, Christy Morgan's Fiesta Quinoa Salad and Christina Ross's Daikon Mushroom Fettuccine, this collection of recipes has you covered for any occasion or craving.
