The Global Minotaur is a fast course in the economic workings of capitalism, covering the major players only, and starting at the 1944 Bretton Woods conference. Central to the author’s thesis is the principle that any monetary system requires mechanisms for transferring resources and capital from supply areas to deficit areas.

The US (the Minotaur) used to govern the international monetary system, but no more; and this crucially means that there is no surplus recycling mechanism that can reliably stabilise the world economy. The elephant in the room, so to speak, is a stumbling Minotaur.” University of East Anglia Shaun Hargreaves-Heap

Under its aegis, in Europe there rose another monetary system: the Eurozone which would never have come into being had it not been for the global reign of the Minotaur. The euro was, in this sense, the Minotaur’s European counterpart; its simulacrum. In 2008 the Global Minotaur was mortally wounded, a victim of its own success.
