## Chapter 4 Tissues The Fabric of Life Study Guide(1).docx ...

all epithelial tissue have two names: first name indicates number of cell layers: simple epithelia are sing layer thick. Stratified epithelia are two or more layers thick.

Second name indicates shape of cell:

squamous: flattened and scale-like. cuboidal:

box like, cube. columnar: tall, column like.

In stratified epithelia, shape can vary in each layer so cell is name according to the shape in apical layer.
