Total Quality Management (TQM) is a top-management strategy aimed at embedding awareness of quality in all organizational processes. Total Quality Management is a total system approach and it is an integral part of the strategic decision making of the top management. It works horizontally across all the functions and departments.

Structure

Total Quality Management is a process to ensure that all work aims toward the common goal of improving product quality or service. TQM also enhances the production process or process of delivering service. However, in TQM the emphasis lies on fact-based decision making which uses performance matrices to monitor progress.
